Address: 17305 Brookhurst Street
Fountain Valley, California
Phone: 888-44 MediZen (888-446-3349)
Web site: www.medizenadvancedimaging.com

- ? MediZen Advanced Imaging, located in Fountain Valley in the heart of Orange County, is a state-of-the-art diagnostic imaging center that provides convenient, non-invasive, FDA-approved early detection of cancer and disease.
- ? Dr. David T. Mai and Brian H. Ton founded MediZen Advanced Imaging in December 2003.
- ? The sophisticated equipment at MediZen Advanced Imaging can be utilized for the monitoring and detection of heart disease, lung cancer, colon cancer, breast cancer, osteoporosis, neurological disorders such as Alzheimer's, aneurysms and other ailments.
- ? Dr. David T. Mai is the Medical Director of MediZen Advanced Imaging. A pioneer and expert in the field of radiology, Dr. Mai is a board certified radiologist who has extensive training in imaging as well as radiology.
- ? Heart disease is the number one cause of death in America, claiming 931,108 lives in 2001. Often, the first symptom of heart disease is a fatal heart attack. The second leading cause of death in the U.S. is lung cancer, a disease treatable only if detected and diagnosed early.
- ? The name "MediZen" reflects a blend of science, medicine, culture and art showcased at the imaging center. The facility incorporates a combination of traditional medicine with Eastern philosophy.
- ? In order to create a tranquil atmosphere for guests, MediZen Advanced Imaging will feature feng shui interior design and art installations from local artists.

- ? MediZen Advanced Imaging uses the latest generation multislice CT scanner from General Electric, the GE Lightspeed 16.
- ? The Lightspeed 16 has the fastest rotational speed of any available multi-slice scanner, providing the clearest images possible. These images allow physicians to monitor and detect an abnormality in its early stages.
- ? In addition to the multislice CT scanning, MediZen Advanced Imaging also provides Positron Emission Tomography (PET)/Computed Tomography (CT) scanning, mammography, ultrasound, Open MRI, CT Angiography, Virtual Colonoscopy, Lung Screening, Full Body Imaging and Bone Density Screening.
- ? Candidates for MediZen's Early Disease Detection procedures include individuals who are 45 or older and are concerned about their health and those who have a known family history of conditions such as heart disease, cancer, high cholesterol, high blood pressure or anyone who smokes tobacco.

Located at 17305 Brookhurst Street in Fountain Valley, California, MediZen Advanced Imaging can be reached by calling 888-44 MediZen (888-446-3349) or logging on to www.MediZenAdvancedImaging.com.
